

LEAGUE INFORMATION

The City of Springdale Parks and Recreation Department provides the youth in Springdale with the opportunity to play the game of soccer. This program will focus on basic fundamental skills, help develop motor skills, teach the team participation concept, and promote good sportsmanship. Each participant should receive equal playing time and attention and should have the utmost positive experience. It is important to make this a fun experience for each participant as this may be the determining factor for these players and their future participation in soccer.
